L39250400

Find the perfect balance on trails between a light, sensitive touch, and just enough cushioning and protection to keep you racking up the kilometers. Sense Pro 2 is your lightweight trail shoe for running nirvana.

### Proprioception

A unique, lightweight ProFeel film protects from sharp trail objects, while a low midsole height ensures terrain feel.

### Lightweight

This minimalist shoe is made even lighter with a combination of superlight materials, welded seams, and low profile.

### Precise Fit

Sensifit with quicklace and friction free eyelets wraps the foot precisely and comfortably. Endofit improves ground feel and comfort.
