L39250600

Find the perfect balance on trails between a light, sensitive touch, and just enough cushioning and protection to keep you racking up the kilometers. Sense Pro 2 women's is your lightweight trail shoe for running nirvana.

Proprioception

A unique, lightweight ProFeel film protects from sharp trail objects, while a low midsole height ensures terrain feel.

Precise Foothold

Close-to-foot last, Endofit and Sensifit give the foot a hug and comfortable feel.

Lightweight Protection

Even the lightest weight shoes need essential protection on the trail, so the ProFeel film keeps the sharp rocks and objects from poking through, but doesn't add weight.
