skinGUARD™

An amphibious shoe built for speed, in or out of the water.

One shoe, in and out the water. Swim - run racing is a game that mixes two different worlds. The new, even lighter S/LAB XA AMPHIB 2 is designed with and for the athletes in the sport, and it's fast and super efficient both wet and dry. It's precision and fit leave nothing to chance.

Long distance ride

Once you're on dry ground, this shoe is built to run, with a bottom unit designed for the trails. Go the distance with a light, natural stride.

Water evacuation

The mesh stays light in the water and dries fast on the ground. The shoe is a partner, not a hindrance.

Unfailing grip

Contagrip® Premium Wet Traction rubber grips even the wettest rock when you're exiting the swim. In the water, a red mark on the sole lets you identify your team partner.

Scales & Specif

- Breathability : 6/6
- Cushioning : 3/6
- Lightness : 5/6
- Protection : 3/6
- Stability : 4/6

Specifications Model

- Weight (g) : 215
