sensiFIT

A supportive, mid-cut hiking shoe that's easy up, even easier down.

A best seller, the X ULTRA MID 3 GTX has evolved into an even more effective hiking shoe thanks to Descent Control technology that efficiently tackles technical hikes and really shines during tough descents. Wear this pair and head downhill with a spring in your step, even in wet conditions.

Foothold

A refined last works with the reinforced top arm of the sensifit, holding your foot comfortably in place, especially moving downhill.

Stability and cushioning

The Advanced Chassis, surrounded by foam cushioning for comfort, connects directly to the sole to stabilize your heel.

Grip

Two different types of rubber result in better grip. A patterned area on the heel grabs terrain more aggressively, giving you more control especially on descents.
