

SPEEDCROSS 5 W L40968700 Wht/Wht/Bluebird

Wht/Wht/Bluebird

Ortholite®

sensifIT

The rebirth of Salomon's legendary trail shoe with unmatched grip and fit.

To create the next generation SPEEDCROSS 5 W, we went back to the source code, capitalizing on the values that make SPEEDCROSS legendary. Even more grip, and a more dynamic upper set a new high-bar on performance and fit. And with better stability and a refined look, a new legend has arrived.

Grip

The sole of SPEEDCROSS 5 has larger lugs with more space and an updated geometry, delivering better push-off grip and braking grip, in all surface conditions.

Stability

The heel unit of SPEEDCROSS 5 creates a cradle for your heel, ensuring clean foot strike and stability through the stride.

Fit

SPEEDCROSS 5 uses a completely welded upper, with dissociated sensifit arms. It moves more naturally with your foot, and dials in the comfort.
